WORK EXPERIENCE

AccountingWare

Software Engineer

Apr. 2021 – Present

Lubbock, TX / Remote

- Spearheaded a complete overhaul of the customer facing dashboard. Planned, designed, and implemented new features and drastically improved user experience.
- Implemented enhancements and maintained functionality of the self-service portal, working across the entire stack.
- Led and participated in conversations surrounding design language, user experience, and programming best practices and trends.
- Developed solutions tailored to our customers needs, implementing in-house, as well as third-party APIs.

Midland Christian School

IT Support Specialist

Jul. 2017 – Apr. 2021

Midland, TX

- Launched a digital-signage initiative installing more than 10 digital signage installations throughout the campus, as well as necessary supporting infrastructure.
- Wrote scripts to automate common IT Department tasks, as well as scanning student computers for issues and prohibited content.
- Provided direct support to both students and staff.
- Implemented network, security, VOIP, live sound, and lighting solutions across the campus.
